

One Humanity Means Solidarity

David Allen Stringer

One Humanity for us means solidarity
with all beings who are, in any way, oppressed,
is far more than an idealist's spiritual cliché
and means we want for all people and peoples the best,
also in Harmony with the One Creation
means we must reverence all our fellow flora and fauna too
as, otherwise, we sow the seeds of our own damnation.
Peace thrives only on Justice to bear fruits true!
All children of One source Life-force creative
we abhor that anyone or thing might live
subjected to any suffering or misery-
Crimes against the Sacred Life we can never forgive.
So as well as seeking Harmony's secret to understand
We must in solidarity with all those deprived ever stand!
