

LEAD US NOT INTO EXTINCTION  
David Sparenberg

**Prayer Of The Animals**

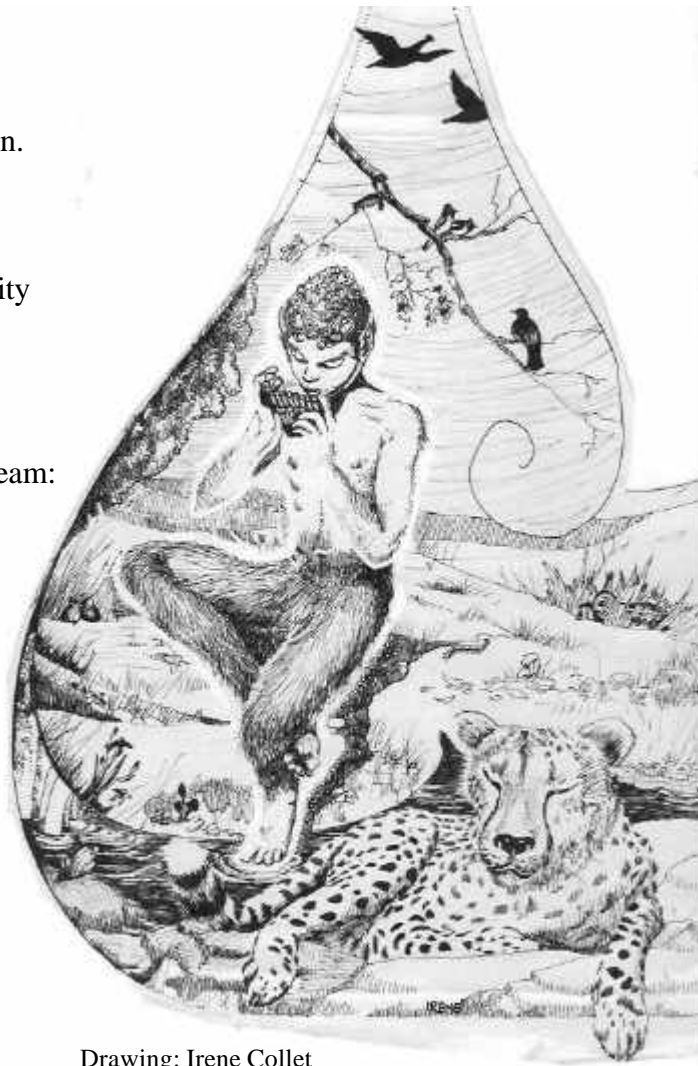

Our kin,  
who now possess the land  
where once we roamed,  
plentiful and free,  
lead us not into extinction,  
but deliver us from the devouring  
dis-ease of human greed.

Give us this day  
(even unto the seventh generation)  
a belonging-place to be  
what we are, and in harmony  
with All Our Relations.

For yours is the power  
to restore or further destroy  
the Sacred Hoop of Creation.

Make a warrior's choice  
by honoring unity in diversity  
of the Great Mystery.  
Let Spirit guide you

back to Creator's vision-dream:  
We Are All One Family.
